

Brainstorming & Idea Prioritization Template

Date	12 July 2026
Team ID	SWTID- 2026-9030
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	T Gowtham	ML model to predict credit card approval/rejection based on applicant data	Machine Learning	1
2	Chinthakunta Shivasagoud	Data preprocessing and handling missing/imbalanced applicant records	Data Management	1
3	Battu sunil kumar	Feature engineering (income, credit history, debt ratio)	Machine Learning	1
4	Prashanth kumar majunla	Exploratory Data Analysis dashboard for applicant trends	Data Visualization	2
5	T. Gowtham	Model explainability (why an application was approved/ rejected)	Explainable AI	2

6	Chinthakunta Shivasagoud	Web app/UI for staff to input applicant data and view predictions	User Experience	3
---	--------------------------	---	-----------------	---

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (H/M/L)	Importance (H/M/L)	Priority	Selected
1	Build ML classification model for credit card approval prediction (data preprocessing + feature engineering + model)	High	High	1	Yes
2	EDA and model explainability for applicant decisions	High	Medium	2	Yes
3	Web app/UI for staff to input data and view predictions	Medium	Medium	3	No
